

e-payslip swiss+

Get your payroll electronically under way

Payslips are often sent out by conventional mail, resulting in high costs and postage as well as a greater administrative effort. In many cases, employees on monthly pay even receive an identical piece of paper every month.

e-payslip swiss+ as a solution

e-Payslip swiss+ definitively makes paper mailing a thing of the past. From SAP HCM, you can easily send one or more PDF documents via email.

Employee-friendly, flexible and cost-effective, and just as secure as a registered letter. IncaMail, the Swiss Post's professional solution for secure email transmission, makes for encrypted and password-protected transmission. Of course, sending and receipt are always transparent and completely traceable in SAP HCM.

Not only payroll accounting, but also time records, wage statements and personnel master-data sheets can be sent to employees in a simple and personal manner via this route.

System requirements

e-Payslip swiss+ can be used as of SAP Release ECC 6.0.
Supported browser versions (relevant for mail recipients):

- Internet Explorer from 7
- Firefox from 3
- Google Chrome from 8
- Safari from 5

The connection between the customer and IncaMail is secured via TLS or alternatively via SOAP.

IncaMail

- Patented solution from Swiss Post
