The continuous dialogue between employees and managers is optimally promoted and supported. Flexible check-ins during the year create transparency and enable an ongoing exchange of information. Various feedback functionalities contribute to improving the feedback culture of the entire company. With SAP SuccessFactors Continuous Performance Management, you can help your employees and managers achieve their goals during the year and improve the performance of your entire organization.

SAP SuccessFactors 360° Degree Feedback

Help your employees and superiors to take an objective perspective and become aware of the different opinions. The feedback from the relevant employee groups is clearly presented in a consolidated overview. With SAP SuccessFactors 360° Feedback, you can promote the feedback culture in your company and improve the development of each individual employee.
